Daryl Dickenson Transport is a family owned and operated business primarily handling steel cartage locally, intrastate and interstate. We specialise in container & side-loader services, steel cartage, wharf cartage and offer secure storage facilities, warehousing & distribution. Daryl Dickenson Transport was established in 2001 by Daryl & Tracie Dickenson. Prior to the establishment of Daryl Dickenson Transport Daryl Dickenson was an owner operator for 13 years.

Our core values are aligned with ensuring that our customers are serviced to the highest level possible, in return adding value to their business as well as ours. We have a dedicated team of administration professionals that specialise in account management, work place health and safety, operations management and BlueScope Load Restraint training.

Capabilities

We continually look to improve our service throughout all aspects of our operations. We provide Current Industry Technology, Leading Safety Protocols and Professional Accreditations. We deliver continual high standards and excellence in customer service. We consistently provide our customers with professional service and excellence in our transport and warehousing solutions.

Daryl Dickenson Transport currently provides the following services to our clients:

*Warehousing

*Container Cartage

*Steel and Pipe Transport

*Break Bulk Cargo-Break bulk cargo is non containerised and is usually transported as individual pieces due to cargo often being oversized and overweight meaning freight containers cannot accommodate the cargo.

Facilities and Equipment

Daryl Dickenson Transport currently has a fleet of 38 Trucks and 68 trailers with a base of 30 Sub-Contractors.

We provide the following to our customers:

-Body trucks-14 Tonne-20Tonne

- Single Trailers

- Extendables up to 22 metres

- B Double Combinations

- Road Train Combinations

- Sideloader

All Daryl Dickenson Transport trucks are currently fitted with an up to date Navman GPS satellite tracking systems which allows us to have real time web-based vehicle tracking. This system allows for vehicles to be located in real-time, viewing driver activity, monitor vehicles and real time load location.

Expertise

With our extensive knowledge of the transport industry, industry accreditations, staff training program and the good working relationships with our sub-contractors, we continue to deliver a comprehensive service at all levels to our existing and future clients. Daryl Dickenson Transport is dedicated to delivering our client's products to the right place, at the right time, and for the right price. We strive to exceed industry safety standards through our operations.

Daryl Dickenson Transport currently holds Accreditations in Truck Safe, NHVAS Maintenance, Mass, Fatigue Management and is a Signatory to the Australian Steel Industry Logistics Safety Code. Daryl Dickenson Transport is a member of Queensland Trucking Association and Natroads.
